

Australian Aquatic Biological Pty Limited

A.C.N. 127 431 118

Consult: C00179

MARINE AND FRESHWATER AQUACULTURE FARM ON PORT STEPHENS NSW, FOR SALE.

Robert B McCormack: rob@aabio.com.au

Aquaculture consultancy

Australian Aquatic Biological was contracted to sell an aquaculture facility at Port Stephens, NSW. We created, promotional material and advertised the farm throughout our networks, arrange site inspections with prospective purchasers, supplied information on the site and aquaculture potential of the farm to interested parties. The project was extremely successful and the property was quickly sold with little effort to the owner.
